

Our team-members want to learn, to better themselves and the community, they are curious and aren't afraid to explore, they are innovation and enjoy solving problems and working as a team member, people that care about culture and diversity. Their values will be aligned with the organization culture. They will want to be part of building a successful community and a better world.

Create a diagram of the life skills and where they are embedded

Training Schedule	
<p>Getting to know our selves</p> 	<ul style="list-style-type: none"> • Who am I? • A candidate's commitment to values and ethics is a key driver for success • Focus on the students' strengths • Create a brand for themselves • Interpersonal skills <p>'active listening' – defined as “giving full attention to what other people are saying, taking time to understand the points being made, asking questions as appropriate, and not interrupting at inappropriate times”</p>
<p>Forming our learning team</p> 	<ul style="list-style-type: none"> • Create a team structure & culture • How to work with each other • What are our values and operating norms • How to control myself in various situations • Listening skills

Training Schedule	
	<p>self-monitoring and assessment are connected to the ability to monitor and assess others and are crucial for working in a team. They are also linked to good time management</p>
<p>Deciding on our problem to work on</p> 	<ul style="list-style-type: none">• What is the real problem we need to solve?• Deciding on the requirements & research• Developing our goals and plans• Planning skills and time management• Thinking like an owner – Customer focus <p>Breaking down big tasks into easy steps and emphasizing the importance of mistakes in achieving success can help students to avoid being overwhelmed by work or fearing failure</p>
<p>Problem-Solving</p> 	<ul style="list-style-type: none">• Thinking skills – creativity, critical• thinking, Questioning• Framing the problem• Brain storming• Shaping the results• Decision making

Training Schedule	
	After we decide on a problem we want to solve, we use the engineering design process to help us find possible solutions. We are using a design process that is a combination from Engineeringlens.org and Olin college of engineering
Testing & Reflection 	<ul style="list-style-type: none">• Iterative process of design• Looking to see how you can improve• Redesigning what you did• Reflecting with your teammates
Presenting our solution 	<ul style="list-style-type: none">• Elevator pitch• Presentation delivery skills• Engagement Students will work cooperatively to develop a verbal and visual presentation. Having a public product ups the stakes for students, leading them to do higher quality work. No one wants to look bad in public

END
